

AHMS SUPER LIGHT PUMPSHACK

Almost half the weight of traditional designs

- ♦ Approximately 62,000 lbs vs 105,000 lbs ifor a traditional F-1000 Setup
- ♦ Uses Transmission to control pump output giving better control
- ♦ Eliminates the need to change pump liners
- ♦ Allows the operator to achieve higher working pressures at extremely low flows without stalling the engine
- ♦ Much smaller footprint, allowing highway transportation without the need for a pilot truck
